NOTICE TO APPLICANTS

A Variation is a zoning adjustment which permits minor changes of district requirements where individual properties are both harshly and uniquely burdened by the strict application of the law. The power to vary is restricted and the degree of variation is limited to the minimum change necessary to overcome the inequality inherent in the property.

1. A Variation recognizes that the same district requirements do not affect all properties equally, it was invented to permit minor changes to allow hardship properties to enjoy equal opportunities with properties similarly zoned. You must prove that your land is affected by special circumstances of unusual conditions. These must result in uncommon hardships and equal treatment under the strict application of the Zoning Ordinance. Where hardship conditions extend to other properties a Variation cannot be granted. The remedy for general hardship is a change of the map or the text of the Zoning Ordinance.

2. You must prove that the combination of the Zoning Ordinance and the uncommon conditions of your property prevents you from making any reasonable use of your land as permitted by your present zoning district. Since zoning regulates land and not people, the following conditions cannot be considered pertinent to the application for a variation: (a) Proof that a variation would increase the financial return from the land; (b) Personal hardship; (c) Self-imposed hardship. In the last case, the recognition of conditions created after the enactment of the Zoning Ordinance would encourage and condone violation of the law.

3. No Variation may be granted which would adversely affect surrounding property or the general neighborhood. All Variations must be in harmony with the intent and purposes of the Zoning Ordinances.
