

ADDENDUM NO. 1

November 16, 2017

CITY OF MASCOUTAH MAPLE PARK RESTROOM PROJECT

The Invitation for Bids for the Maple Park Restroom Project is hereby revised or clarified as described below.

- There will not be a pre-bid meeting for this project. Bidders are encouraged to visit the site and make themselves aware of the existing conditions.
- The existing building that is to be removed is located in the northwest corner of Maple Park near the intersection of Maple Street with W South Street. The building's previous use was a storage building. The new restroom building will be constructed in the same location with the front of the building (doors) facing south.
- Drawings are not required.
- Building Permit is required but permit fee will be waived.
- Minimum 9' interior wall height and 7' tall doors.
- Roof Pitch shall be minimum 4:12.
- Ceiling material shall be 29 Gage Max Rib Metal.
- Concrete footing shall be per code 32" deep, 8" thick, 24" wide. Concrete shall be per code, 5 bag mix (4,500 PSI). Foundation walls shall be per code plain block underground. Floor slab shall be pinned to stem wall.

Submit signed copy of this addendum attached to Bidder's Proposal.
