LOCAL PUBLIC AGENCY FORMAL CONTRACT PROPOSAL
 FAU ROUTE 9377 / IL ROUTE 177 (MAIN STREET)
 SECTION 14-00025-00-PV
 RESPONSES TO BIDDER'S QUESTIONS

NO.	BIDDER'S QUESTION	CITY OF MASCOUTAH RESPONSE
1	Is any information available for the monitoring wells that are to be sealed (i.e., diameter, depth)?	No, assume 2 inch diameter and maximum depth of 25 feet per Standard Specifications.
2	Can you provide the thickness and type of pavement for the pavement removal item?	Existing pavement is PCC 7 to 9 inches thick with asphalt overlay approximately 3 inches thick.
3	Does the high early pavement for the IL Rt 4 Intersection require dowel baskets?	Yes.
4	Is the pattern for PORTLAND CEMENT CONCRETE SIDEWALK 5 INCH, SPECIAL to be stamped or stenciled?	Stamped.
5	Would daily closures of IL 177/Main Street (maximum 4 single day closures) be allowed in Stage 1 and 3 to allow space for concrete trucks during pavement pour?	Not at this time. Bid as is. Construction staging changes may be proposed for consideration after the award.
6	Does all of Stage 2 need to be complete in one weekend or just pavement? Not sure if storm sewer, curb & gutter, sidewalk and pavement can all be completed in one weekend. Can there be multiple weekend closures?	Bids should include completion of all Stage 2 work in one weekend. Construction staging changes may be proposed for consideration after the award.
