ELECTRIC/WATER METER TEST

I hereby request that the City of Mascoutah test my ELECTRIC/WATER meter.

An independent meter test company will perform the test. The cost of the electric meter test (for a single-phase meter) is \$55 and water meter test is \$55. The cost has to be paid before the meter(s) will be tested.

I understand that if the meter test results indicate a defective meter, the City of Mascoutah will reimburse the cost of testing and an adjustment will be applied to the customer's utility account. However, if the meter test indicates that the meter is accurate, no adjustment will be made and the cost of testing will not be reimbursed.
